

**The HIV/AIDS DISP program will be postponing the National Native Health Awareness Day event in Sells on March 28, 2020 until further notice.**

This is due to the current challenges and in response to the COVID-19 situation. We regret any inconvenience and disruption that postponing the event may cause. We appreciate all of the work many of you have put into making this event a huge success, and look forward to collaborating with all of you at a later date.

Sincerely,

Kristopher Fimbres

Supervisor HIV/AIDS DISP
