Do I need to wear a mask & avoid close contact with others if I have gotten 2 doses of vaccine?

COVID-19 VACCINE

Yes!

To protect yourself and others, follow these recommendations:

Wear a mask over your nose and mouth

6 FEET — Stay at least 6 feet away from others

Avoid crowds, poorly ventilated spaces

Wash your hands often

It's important for everyone to continue using all the tools available to help stop this pandemic as we learn more about how COVID-19 vaccines work in real-world conditions. COVID-19 vaccines are safe and over 94% effective in preventing COVID-19 illness.

WE STILL DON'T KNOW:

- If the vaccines will work against the variant COVID virus.
- If people can spread COVID-19 after vaccination.

Together, COVID-19 vaccination and following CDC's recommendations for how to protect yourself and others will offer the best protection from getting and spreading COVID-19. Additional information can be found at cdc.gov/coronavirus and tonhc.org/coronavirus.

USE YOUR HEAD, STOP THE SPREAD.
