What's New?

Low	
Transmis	sion

Moderate Transmission Substantial Transmission High Transmission

COVID-19 Omicron cases are decreasing, but transmission risk level remains HIGH

Although COVID-19 Omicron cases are decreasing across the state, transmission risk remains very high. Hospitals remain at near-full capacity and emergency department wait times are long. You are most protected with full vaccination and a booster and by wearing a high-quality mask at all indoor public areas.

COVID-19 Vaccines and Boosters (NEW-Feb 2022)

US Food and Drug Administration granted full approval for Moderna's 18 year and older COVID-19 vaccine, similar to Pfizer's fully approved vaccine for 16 years and older. FDA is considering Emergency Use Authorization of COVID vaccines for children 6 mo.-4 years old. CDC recommends that all persons ages 5 years and older get COVID-19 vaccinations and all persons ages 12 years and older get a booster vaccine, 5 months after their primary series.

COVID-19 treatments (NEW-Jan 2022)

Two new treatments for COVID-19 are available, but are in very limited supply: the monoclonal antibody effective against Omicron (sotromivab) and the oral antiviral medication (Paxlovid). Arizona has prioritized these treatments for patients at highest risk for serious disease from COVID-19, especially older persons and people with underlying health conditions. TONHC is offering both.

Free At-Home COVID-19 Rapid antigen Tests

Households may order home tests at www.covidtests.gov or 1-800-232-0233/TTY option 1-888-720-7489. If you test positive, you do not need a "confirmation" test, but should notify a provider or public health team. Public Health does not recommend re-testing for 3 months after a positive test.

The following graphics show COVID-19 vaccination rates for persons who receive care through TONHC, and specifically among Tohono O'odham Nation Members. Data are retrieved from TONHC's Resource and Patient Management System (RPMS) and the Arizona State Immunization Information System (ASIIS). Vaccination data of TON members who received vaccinations through PIMC are also included. Some vaccinations obtained outside TONHC may be undercounted due to a data exchange disruption between RPMS-ASIIS and will be included when available.

On-site same-day testing began on April 20, 2020 and expanded to same-day testing at San Xavier, Sells, and San Simon Health Centers.

TONHC uses three testing modalities: in-house Nucleic Acid Amplification (Abbott ID NOW) and PCR testing (testing for SARS CoV-2, Flu A, Flu B, and RSV using one swab (began Feb. 1, 2021).

Send-out PCR testing is also available through Sonora Quest.

After CDC recommended to not use serologic testing, effective 8/1/21, in-house antibody testing was discontinued,

Arizona COVID-19 School Benchmarks

On March 2nd, 2021 CDC announced updated school guidance. The Arizona Department of Health Developed Community Transmission to Reflect Level of Community Risk: CDC recommends the use of two measures of community burden to determine the level of community transmission. These measures assess the incidence and spread of COVID-19 in the community, not the school itself. Risk is dependent on community level transmission and implementation of school and community mitigation strategies.

Sells Emergency Department

Door to transfer time, the amount of time it takes to transfer a patient to another facility for higher-level care from the time they entered the emergency department, has increased dramatically for Sells Emergency Department since August 2021 due to COVID-19. As higher-level care hospitals continue to see increased COVID-19 cases, Sells ED patients will continue seeing increased wait times.

PUBLIC HEALTH NURSING – CONTACT TRACING

County and State Health Departments will assist TON with COVID-19 notifications

The current surge in COVID-19 cases is causing delays for health departments across the state to contact persons infected with COVID-19. During the surge, Pima and Pinal County Health Departments and the Arizona Department Health Services (ADHS) will assist the Tohono O'odham Nation to notify persons who test positive for COVID-19 and persons they might have had contact with. Please cooperate with the health departments if they contact you.
