COVID-19 Situation Update: August 3, 2022

T-Ñukuda Ha'icu Cihañig

Information is current as of August 3, 2022 at 7:00 and may change as more data is available.
TONHC will distribute the COVID-19 Situation Update once monthly.

COVID-19 Community Level [CDC COVID Data Tracker: County View](#)

CDC's determines the COVID-19 Community Level by county analyzing three metrics.

1. COVID-19 Rate=Number of new COVID-19 cases in the past 7 days/county population x 100,000.
2. Hospitalized Cases: Total new patients with COVID-19 in the past 7 days/county population x 100,000.
3. Percent of hospitalized persons with COVID-19/total persons hospitalized in the county (7-day average).

TONHC will follow Pima County's risk level for community level awareness.

COVID-19 Community Level = LOW

COVID-19 vaccines for kids 6 months and older and for all adults now available at TONHC

COVID-19 vaccines are recommended for all persons ages 6 months-through adulthood. CDC recommends that all persons 6 months and older be up-to-date on their COVID-19 vaccines. Most people will receive two primary shots and one booster. Some groups benefit from extra protection and should get additional boosters. These groups include persons with weaker immune systems, all adults ages ≥50 years, and people who received only the Janssen vaccine. Ask your provider to see which booster you should get and when. CDC reported that during the winter Omicron surge, people who were boosted were 21 times less likely to die from COVID-19 compared to those who were unvaccinated, and 7 times less likely to be hospitalized. The FDA recommended that future boosters contain protection against new variants including Omicron BA.5. Vaccine manufacturers will likely prepare vaccines with the new variants this fall.

Check if you need a COVID-19 booster using the CDC website: [COVID-19 Vaccine Boosters | CDC](#)

New guidance about quarantine and isolation from CDC.

On August 11, 2022 CDC published new guidance about COVID-19 to help individuals guide their personal precautions. On the TON it makes sense to maintain increased precautions, especially for individuals with higher risks to lessen the illness burden of COVID-19. People over 12y with weaker immune systems who might not make adequate antibody protection may benefit from pre-exposure antibody treatments. Ask your provider if you should consider this antibody therapy. Test and Treat

TONHC continues to offer rapid COVID-19 testing and treatment. Paxlovid (oral medication) and IV infusions with monoclonal antibodies or the antiviral Remdesivir are authorized for persons at high-risk for severe disease. If you test positive, ask your doctor or pharmacist if you should consider treatment for COVID-19.

- Adults ages 50 years and older
- People who received Johnson & Johnson's (Janssen) COVID-19 vaccine for their first shot and booster should get at least one Moderna or Pfizer vaccine dose.

COVID-19 Vaccinations, TONHC

TONHC began COVID-19 vaccination December 22, 2020. TONHC vaccinates through the health centers, community events, and with partner agencies including Pima County Health Department, Tucson Indian Center, University of Arizona, Premier Medical Group, Indian Health Service, and others. Data are retrieved from TONHC's Resource and Patient Management System (RPMS) and the Arizona State Immunization Information System (ASIIS). Vaccination data of TON members who received vaccinations through PIMC are also included. Some vaccinations obtained outside TONHC may be undercounted due to a data exchange disruption between RPMS-ASIIS and will be included as available. Due to these data retrieval issues, total numbers from different databases will not be equal.

PUBLIC HEALTH NURSING – CONTACT TRACING

County and State Health Departments will assist TON with COVID-19 notifications

The current surge in COVID-19 cases is causing delays for health departments across the state to contact persons infected with COVID-19. During the surge, Pima and Pinal County Health Departments and the Arizona Department Health Services (ADHS) will assist the Tohono O'odham Nation to notify persons who test positive for COVID-19 and persons they might have had contact with. Please cooperate with the health departments if they contact you.
